charming and inexpensive little present is a silver plate with the owner's name engraved on it, such as I sell for bicycles. It has the advantage of being an impersonal present that any lady or gentleman can give to a friend without attracting comment.

So many similar wheels are being used now that it not infrequently occurs that some one carries off yours purely by mistake—these little title plates prevent such occurrences and add to the appearance of the wheel.

I want to sell you all your silverware.

NEW INDIAN OUTBREAK.

Five Hundred Rebel Reds Rise Up in Yucatan.

St. Louis, Mo., Aug. 15.—A special from the City of Mexico says that information has been received from Yucatan to the effect that 500 rebel Indians, well-armed with Remington rifles, have left Bacalar with the evident intention of making an invasion into the territory occupied by settlers near the southern border of Mexico.

The report has caused the War Department to take active steps to put down the threatened outbreak, and an officer well-versed in the situation has been dispatched to the scene from Merida with a force to reconnoiter the districts. In case the Indians are on the warpath, as reported, it is probable the government will push more actively the preparations for the entire subjugation of the Yucatan Indians, which movement has been thus far delayed, awaiting the passing of the great heat of the summer on the southern peninsula.

WILSON FOR THE BENCH.

Report That He Has Been Tendered the Judgeship.

The information has been obtained from unusually reliable sources, as stated in today's Morning Times, that the vacancy on the Supreme Bench occasioned by the death of Justice Jackson will be tendered Postmaster General Wilson. Coupled with this information is the statement that Mr. Wilson has signified his intention to accept.

Mr. Wilson was seen at his residence, but stated that so far as his own personal knowledge went there was no foundation for the report. He declined to make any statement upon the subject from Mr. Cleveland since the death of Justice Jackson.

At the same time it is believed to be a practical certainty that the appointment, as indicated, will be made within this period and the construction of Congress. That the Postmaster General will accept is regarded as a foregone conclusion.

Another Lynching Too.

Fulton, Mo., Aug. 15.—The negro Emmett Dwyer, who murdered Mrs. Cain, was lynched at 1 o'clock this morning. Dwyer was met on the road, as he was being taken here for trial, by a mob, who dragged him by force from the custody of the sheriff. A rope was quickly placed around his neck, and he was hanged from the middle span of a high bridge nine miles east of here.

When arrested by Sheriff Pierce, he was taken to St. Louis, after several thrilling escapes from infuriated citizens. In the jail at St. Louis the negro confessed to killing the woman.

Marriage Licenses.

Licenses to marry have been issued as follows:

HIS HONOR WAS LENIENT

He Graciously Accepted Personal Bonds in Many Cases.

Old Offenders, Vagrants and Disorderly Men Filled the Police Court Dock.

A motley crowd of loosely attired prisoners lined up in the dock of Judge Scott's court this morning.

Boy Langley, best-looking white boy, was charged with disorderly conduct. The officer who made the arrest said the boy had a good reputation, and he thought that the night spent in a station-house cell had punished him sufficiently, so Judge Scott took his personal bonds.

"Mr. Keena," called the clerk.

Keena is a musician, and was in the court yesterday—charged with obstructing the sidewalk, and his personal bonds were taken. To-day a similar charge was preferred against him by Policeman Evans, who found him on the street drunk and asleep. Keena was very shaky, but said that he only ate down because of illness. He made a strong plea for another chance.

Martha Barker pleaded guilty to being a vagrant and was sent to the workhouse for thirty days.

Mr. Perham, a well-dressed young man, was charged with disorderly conduct, and John Warwick, an old fruit dealer, was the prosecuting witness.

"He came up the street, your honor, and when he passed me he yelled and barked at me. He's been doing it for two years."

"Did you ever have him arrested before?" asked Lawyer O'Neill.

"I did last August, for the same thing."

"Didn't Judge Taylor dismiss the case then and drive you out of the dock for using bad language?"

Judge Scott said he didn't want to hear any more, and dismissed the case.

Joseph Hicks pleaded guilty to two charges of disorderly conduct and was fined \$10.

Bahir Kendig crossed his fingers, when the name of William Washington was called, for the two eyes of the prisoner gazed straight across his nose at each other. The charge against William was emptying garbage in an alley, and his personal bonds were taken.

William Butler was arrested by Policeman Harrover last night for being drunk and disorderly and trying to clean out a saloon in the Eighth precinct. Judge Scott fined him \$2.

Little Brown broke into a vacant house and went to sleep. His slumbers were disturbed, however, by a policeman and he was charged with vagrancy this morning. Later he was taken to the workhouse and, Judge Scott took his personal bonds also.

Ann Murphy, of No. 734 Second street, was fined \$5 for maintaining and refusing to clean a house.

Albert Dixon pleaded guilty to being disorderly, and was fined \$5.

Policeman Flynn made his usual daily walk on the leaders around the court and captured two prisoners. Their personal bonds to leave away were taken, and they were released.

Anthony Barran, an old colored offender, was arrested by Policeman Green, of the first precinct, for disorderly conduct. Barran was drunk on the street, and the court sent him down for thirty days.

GREAT GLASS TRUST.

Reorganization of the Window Glass Manufacturers.

Anderson, Ind., Aug. 15.—The Indiana window glass manufacturers, who comprise the trust formed two months ago, met in this city yesterday to complete the reorganization which was set on foot at Ellettsville Tuesday. All of the thirty-one Indiana plants, virtually all west of Pittsburg, will be admitted, and a meeting of all manufacturers will be held next Tuesday for the election of new officers.

A similar movement is on foot east of the Indiana plant, with the two district markets are working in harmony. They will in all probability, combine to keep all plants closed until the supply is worked off. The new combination controls 940 pots, more than half of all alive. The volume of business the Indiana plant will do is \$87,000,000 annually. They will maintain headquarters at Muncie. Secretary Vandewater stated that the demand was better in July and thus far this month than it ever has been. The price is steadily advancing.

Robbery by Handits.

St. Louis, Aug. 15.—A special from the City of Mexico, says a telegram from Lahuas, in Jalisco, announces an audacious robbery by a troop of bandits in Fortezco Tuesday afternoon. The bandits attacked the store of Abundino Estrada and robbed him, shooting him and inflicting a grave wound. They killed a man who was with him, named Pantaleon Beltran. It is believed that the leader of the band is the famous Rufino Suvila, whose brother Narciso was killed last June in the attack upon the rancho Clavichio.

THE TIMES DAILY WEATHER MAP.
(Prepared at the United States Weather Bureau.)

The above map shows a ridge of high pressure extending from the Middle Atlantic to the Pacific Coast. This condition is favorable for strong radiation of heat at night, and a cooling of the air, but for high isolation and more heat during the day. There is in addition a cool wave in the Missouri Valley that ought to reach the Middle West to-morrow night or Sunday morning. The Gulf storm has remained stationary, but the wind circles show indications that there is still a disturbance in the central Gulf that may develop into a storm. The ridge of high pressure will give clear skies for about forty-eight hours, and will probably prevent any immediate development in the Gulf storm. Students of the weather map, however, may look for interesting changes as soon as this high pressure moves into the Atlantic, thus removing the barrier from the Gulf storm.

HE WORKED IT WELL.

Herman Donath Will Explain Some Things to the Grand Jury.

Herman Donath, for whom a warrant charging him with obtaining money under false pretenses from John W. Randolph, husband and manager of Cyrene, the dancer, had been issued, was given a preliminary hearing in the police court to-day, and was held to await the action of the grand jury in \$500 bonds. The warrant was served this morning by Detectives Horne and Weedon.

Mr. Randolph testified that Donath called on him and represented himself as T. J. Hardesty, a private detective, and attorney for Mr. Hatch, the former proprietor of Cyrene's Hotel, to whom Mr. Randolph was indebted for \$35 for board. This indebtedness was incurred on a former visit of Cyrene to this city, and she left a trunk containing a valuable wardrobe as security. Donath told Mr. Randolph that \$20 would square the bill, and he was given an order on Mr. Kernan for that amount to be cashed on Saturday. Donath then said that the trunk was in storage and that it would take \$4 to get it out.

The order was then changed to \$17, and Mr. Randolph gave Donath \$3 to pay on the trunk. This was the last he heard of him, and on investigating he ascertained that his name was not Hardesty, and that he had no authority to act for Mr. Hatch. On learning these facts he swore out the warrant.

Donath was committed to jail in default of bonds.

NEWMAN GOES FREE.

On Technical Points the Alleged Tumbler Was Not Convicted.

Judge Scott to-day gave a decision in the case of Myer B. Newman, charged with being an unlicensed pawbroker, dismissing the defendant. He said that according to the evidence there was but one piece of property which in any way came into the defendant's possession at the time of the trial, and that was purely a technical possession by virtue of his taking a storage receipt for a carriage which had been deposited at McDermott's for repair.

All other property came into his possession after the trial had been held, and the forfeiture of a chattel mortgage. In no sense could that be considered a deposit as a pledge to secure the loan. In order to bring the case within the pawbrokers law the property must be deposited as a pledge for the security of the loan.

No evidence was produced to show that the defendant engaged in any such business, and the case was therefore dismissed.

Smallpox On a Vessel.

Quarantine, S. I., Aug. 15.—There was a case of smallpox on the steamer Hecelus, which arrived last evening from Rio Janeiro via Bahia and Pernambuco. The chief engineer, J. H. Phenna, aged 34, of Birkenhead, England, was taken sick on August 8, and by order of the ship's surgeon, who suspected smallpox from the symptoms, he was isolated in the Health Officer Dock ordered the patient removed to the reception hospital and the crew and twenty-seven deck passengers removed to Hoffman Island for observation. The steamer will be thoroughly disinfected and taken to pier to discharge.

Setz and others, asking the court to direct a sale of the property known as lot 1, square 343, on New York avenue, between Tenth and Eleventh streets northwest, and order a distribution of the proceeds so that the complainants may have their equitable interest in the same.

Kill Me Man and Betters.

New York, Aug. 15.—A special from New Orleans says: The Hon. Dabney Marshall, of Vicksburg, Miss., who was a Democratic candidate for the senate in the Warren-Hinds district, and who killed a Mr. Denkins a few days ago for making charges against him, has retired from the field. When Denkins' charges became known some of the citizens proposed to take Marshall's name from the Democratic ticket. Before action could be taken Marshall killed Denkins, and now voluntarily retires.

Fighting in Ecuador.

New York, Aug. 15.—The Herald's special cable from Panama says: News was received from Guayaquil, Ecuador, yesterday, that a battle is already in progress between the forces of Alfaro and Saraguro. Alfaro arrived in Catabamba and took up his position, advancing his line to attack his opponent and then made an assault upon Catabamba.

FATAL FALL OF AN ELEVATOR.

Terrible Accident to Workmen in New York State.

Utica, N. Y., Aug. 15.—At 7 o'clock this morning six men stepped on the elevator used in the work of constructing the Martin block in this city. The engine started the engine and the elevator was drawn to the top of the building.

Just as one of the men was about to step off on the temporary floor the rope holding the pulley to the iron girder on the roof broke, and the elevator and its six passengers fell to the cellar, 75 feet below.

The fall was a terrible one, as the platform upon which the men stood was quite heavy, and their weight added to it went the pulverizing structure down like a shot.

For a moment after workmen about the building stood gazing at the accident, then they ran to the opening in the ground floor and peered into the cellar. Their companions lay there in a ghastly heap, and at first it was thought all were dead. Ambulances were summoned and the injured men were taken to places where assistance could be rendered. They were as follows:

Jeremiah Hess, taken to City Hospital, was dead when he reached there.

Albert McLaughlin, wounded in the head and back; may die.

Emory Wood, badly bruised and is thought to be injured internally.

Herold Stubbins, left ankle broken, scalp wound.

John Humphreys, has many contusions and suffered severe shock, but not dangerously hurt.

John Lory, both ankles sprained, left side of head and face bruised and jaw dislocated.

The entry in the equity minute book recording the final proceedings of the court was not in evidence until today.

The court decreed that the marriage settlement made by the husband at the date of the wedding shall hold in lieu of alimony, and also that the wife's right of dower is forfeited.

The two children are left in the custody of the father, and the father is permitted to see them not often than twice a month, unless by consent of the mother. The husband is ordered to pay \$30 a month for their maintenance.

PRAY FOR A RECEIVER.

Suit Brought to Dissolve a Local Publishing House.

A receiver was to-day requested for the Quibby-Hutchinson Publishing Company of this city, the Funk & Wagnall Company of New York filing the petition. The New York company is the publisher of a standard dictionary, of which the Washington concern is agent for Maryland, Virginia and the District.

The Funk & Wagnall Company stated that the local company was permitted to run in debt to it until the amount of money now owed for dictionaries aggregates \$6,652.20.

An execution on a judgment at law developed that the goods of the defendant concern were worth only \$281.95, and unless a receiver be appointed to take charge of the book accounts and money for the publishing company, the complainant can have no relief.

The suggestion is made that by a careful examination of the accounts of the Washington firm it appears that the receipts from the subscribers for books are used to pay a large number of other parties, and for expensive office accommodations.

CRUISER ATLANTA'S FATE.

Has Been Dubbed "The Night Liner" and Gets Interior Assignments.

The Navy Department has determined to order a survey of the cruiser Atlanta on her arrival at New York from Key West to determine her actual condition, which is believed to be very bad.

The Atlanta, which has been at Key West since President Cleveland issued his neutrality proclamation, June 12, with reference to the rebellion in Cuba, will be delivered by the Cincinnati to-day and at once come North. Within the past few weeks some defects have been observed in the Atlanta's boilers, and an effort has been made to place them in better condition while lying on her present station.

It is the determination of the department to have her repaired as rapidly as possible, and when this shall have been done to attach the Atlanta to the strategic squadron now off Newport and give her officers and men the benefit of squadron and tactical practice.

There is an impression at the department that the Atlanta has not been fairly treated in times past owing to the fact that she is not a speedy craft, and that it has fallen to her lot to be continually selected for a line of disagreeable duty from which the newer and speedier ships have been exempt.

For this reason she has been dubbed by the department people "the night liner," which is a term used in Washington to designate the second-rate craft which play their vocation at cheap rates during the late hours of the night.

That the English embassy at Newport is likely to develop more American snobs.

HOVARS ARE ACTIVE.

Making It Lively for the French in Madagascar.

Paris, Aug. 15.—Advices from Molang, Madagascar, of date of August 8, are to the effect that a force of hovars have entrenched themselves at Kinjaly, on the northern slope of the Ambelambona Mountains, between Antananarivo and Antananarivo, the capital. Gen. Duchesne, commanding the French forces, was advancing on their position.

Another hova force numbering 4,000 men have arrived at Benarivo. It is evident that they intend to cut off the French supplies.

There is a heavy mortality among the French troops owing to climatic conditions, which produce malaria and other sicknesses.
